Activity codes that count towards visits for ACC

- CM
- CWC
- WC
- CMG
- HY
- IV
- CST
- CB
- PAL
- TNP
- OST
- DOP

NS06 monitoring

- In column D, select the drop down box for service item code and select NS06 only
- Open up I-drive <I:\ACC\Amy\Nursing Services\District Nursing\Monitoring\Subsequent Injury Notifications>
- Check all patients on the excel spreadsheet that we have the paperwork for the correct ACC number
- If no form, fill out a ACC179 and subsequent injury notification form which can be found: <I:\ACC\Amy\Nursing Services\District Nursing\Monitoring\Memos and Forms\Memos>
- Make sure the 179 has the primary claim in box 1 of the 179 and the subsequent injury ACC number goes into box 8 subsequent injury.
- This is then sent to the nurses once monitoring for the week is completed

NS01 monitoring

- In column D, select the drop down box for service item code and select NS01 only
- Filter the total visits (column G) to show 6+ visits
- Check each patient against WEBPAS and count the visits (only the ones listed above to be counted)
- If patient has had 6+ visits change the service item code on WEBPAS to a NS02. No memo required providing the total number of visits doesn't exceed 11.
- If the paperwork is required, for instance, transfer from another provider, fill out a ACC179 and long term reminder memo, which can be found: <I:\ACC\Amy\Nursing Services\District Nursing\Monitoring\Memos and Forms\Memos>
- These are then sent to the nurses once monitoring for the week is complete

NS02 monitoring

- In column D, select the drop down box for service item code and select NS02 only
- Filter the total visits (column G) to show 11+ visits
- Check each patient against WEBPAS and count the visits (only the ones listed above to be counted)

NS03 monitoring

- In column D, select the drop down box for service item code and select NS03 only
- Filter the total visits (column G) to show 19+ visits
- Check each patient against WEBPAS and count the visits (only the ones listed above to be counted)
- 179 no longer required for NS03, but is needed if the patient has come from another provider, check the relevant district folders of memos, which is located here: <I:\ACC\Amy\Nursing Services\District Nursing\Monitoring\Memos and Forms\Weekly Memos sent to DN> these will have all past memos that haven't been actioned as of yet. Open the memo up and add in today's date and a reminder to apply for long term funding and how many visits the patient has currently had
- If the paperwork isn't in the above, fill out a ACC179 and Extended Approval reminder memo, which can be found: <I:\ACC\Amy\Nursing Services\District Nursing\Monitoring\Memos and Forms\Memos>
- These are then sent to the nurses once monitoring for the week is complete

NS04 monitoring

- In column D, select the drop down box for service item code and select NS04
- Checking expiry dates and total number of visits used in Webpas
- If patient is still within date range and number of visits, don't need to do anything with
- If patient is about to have their extended approval expire or run out of visits, check to see we haven't already asked the nurses for this paperwork via here: <I:\ACC\Amy\Nursing Services\District Nursing\Monitoring\Memos and Forms\Weekly Memos sent to DN> If the memo is in there, Open the memo up and add in today's date and a reminder to apply for Extended funding .
- If the paperwork isn't in the above, fill out a ACC179 and Extended Approval reminder memo, which can be found: <I:\ACC\Amy\Nursing Services\District Nursing\Monitoring\Memos and Forms\Memos>
- These are then sent to the nurses once monitoring for the week is complete

NS05 monitoring

- In column D, select the drop down box for service item code and select NS05A and NS05B
- Checking expiry dates and total number of visits/hours in WEBPAS (can also just use the notes section on the spreadsheet)
- If patient is still within date range and number of visits, don't need to do anything with
- If patient is about to have their Ongoing approval expire or run out of visits, check to see we haven't already asked the nurses for this paperwork via here: <I:\ACC\Amy\Nursing Services\District Nursing\Monitoring\Memos and Forms\Weekly Memos sent to DN> If the memo is in there, Open the memo up and add in today's date and a reminder to apply for Ongoing funding .
- If the paperwork isn't in the above, fill out a ACC179 and Ongoing Approval reminder memo, which can be found: <I:\ACC\Amy\Nursing Services\District Nursing\Monitoring\Memos and Forms\Memos>
- These are then sent to the nurses once monitoring for the week is complete

Blanks

- In column D, select the drop down box for service item code and select blanks
- If any blanks come up, bring up the patient on WEBPAS and change the service item code from blank to NS01
- Check number of visits and request the relevant paperwork if needed from the nurses

Once this is completed, all completed memos will be found in <I:\ACC\Amy\Nursing Services\District Nursing\Monitoring\Memos and Forms\Weekly Memos sent to DN>. From the PDF writer, you will be able to combine all relevant memos into one document by combining the memos you've just completed. Email them to the district nursing referrals as an attachment. In the subject line all that is needed is ACC memos for week starting..... (i.e 8th May 23).

For these memos in the above folder, once received the paperwork for them from the district nurses, can delete out of the weekly memo sent to DN folder.

Receiving of paperwork from the district nurses

Extended funding approval requests

- Received via email
- Check approval request paperwork is correct
 - I. Check date of initial visit is recorded on ACC179 under date of initial consult and that it matches first visit on WEBPAS (see above for list of visits that count)
 - II. Check the request to make sure all relevant information is attached
 - III. Check the 26th visit matches that suggested by the number of visits in WEBPAS-if not update/change
- If the paperwork is correct, save a copy of it under: <I:\ACC\Amy\Nursing Services\District Nursing\Monitoring\Approval Requests> in the correct folder (NS04) and then send this copy to ACC via claimdocs@acc.co.nz. In the subject line, include provider ID K96655, ACC number, and nursing services request
- In WEBPAS, in the note section in injury detail, add in paperwork received, emailed ACC .../.../...-the date you emailed it through to ACC
- Delete the ACC memo out of the weekly memos to DN folder
- If the paperwork is not correct or missing information, email back to the district nurses and attach this paperwork and ask them to update/fix and send through completed paperwork.

Ongoing funding approval requests

- Received via email
- Check approval request paperwork is correct
 - I. Check date of initial visit is recorded on ACC179 under date of initial consult and that it matches first visit on WEBPAS (see above for list of visits that count)
 - II. Check the request to make sure all relevant information is attached
 - III. Check the start date of new requests lines up with expiry of old approval, if not update/change. i.e. end date of current approval 21/09/2020, the start date of new approval should be 22/09/2020

- If the paperwork is correct, save a copy of it under: <I:\ACC\Amy\Nursing Services\District Nursing\Monitoring\Approval Requests> in the correct folder (NS04) and then send this copy to ACC via claimdocs@acc.co.nz . In the subject line, include provider ID K96655, ACC number, and nursing services request
- In WEBPAS, in the note section in injury detail, add in paperwork received, emailed ACC .../.../...-the date you emailed it through to ACC
- Delete the ACC memo out of the weekly memos to DN folder
- If the paperwork is not correct or missing information, email back to the district nurses and attach this paperwork and ask them to update/fix and send through completed paperwork

Subsequent injury notification paperwork

- Received via email
- Check notification paperwork is correct
 - I. Check date of initial visit is recorded on ACC179 under date of initial consult and that it matches first visit on WEBPAS (see above for list of visits that count) with the initial ACC episode i.e. NS01/02/03/04/05
 - II. Check the notification paperwork has the subsequent injury listed and the start date of treatment for it in the below box on the ACC179
 - III. Check the request to make sure all relevant information is attached

8. Subsequent injury (NS06)

ACC45 number of subsequent injury:

Start date of treatment:

- IV. Check the start date of new requests lines up with expiry of old approval, if not update/change. i.e. end date of current approval 21/09/2020, the start date of new approval should be 22/09/2020
- If the paperwork is correct, save a copy of it under: <I:\ACC\Amy\Nursing Services\District Nursing\Monitoring\Approval Requests> in the correct folder (NS04) and then send this copy to ACC via claimdocs@acc.co.nz . In the subject line, include provider ID K96655, ACC number, and nursing services request'
 - In WEBPAS, in the note section in injury detail, add in paperwork received, emailed ACC .../.../...-the date you emailed it through to ACC
 - Delete the ACC memo out of the weekly memos to DN folder
 - If the paperwork is not correct or missing information, email back to the district nurses and attach this paperwork and ask them to update/fix and send through completed paperwork.

Receiving approval letters from ACC

Long term funding approvals

- Not usually required now
- Received via email
- Check the approval letter is correct and that the package start date matches the start date in WEBPAS for that particular ACC episode
- If the approval letter is correct, in WEBPAS, enter in the notes on the relevant referral as whatever the dates are on the approval letter) as LT..... LT approval 22/05/25-21/09/2025
- Change the service item code via the drop down box to NS03
- Add the purchase order number under the update tab on the referral and in the box labeled ACC Purchase Order Number
- Save a copy of the approval letter under <I:\ACC\Amy\Nursing Services\District Nursing\Monitoring\Approvals Received> and in the relevant folder of NS03
- If letter is incorrect, email back to ACC to amended the approval letter. Once this has been fixed, save a copy of the amended approval letter and update WEBPAS accordingly. DO NOT save incorrect letter

Extended funding approvals

- Received via email
- Check the approval letter is correct and that the package start date matches the start date on the request form for that particular ACC episode
- If the approval letter is correct, in WEBPAS, enter in the injury detail comment field as per the image below (whatever the dates are on the approval letter) as EXT.....23
- Change the service item code via the drop down box to NS04
- Add the purchase order number under the update tab on the referral and in the box labeled ACC Purchase Order Number
- Save a copy of the approval letter under <I:\ACC\Amy\Nursing Services\District Nursing\Monitoring\Approvals Received> and in the relevant folder of NS04
- If letter is incorrect, email back to ACC to amend the approval letter. Once this has been fixed, save a copy of the amended approval letter and update WEBPAS accordingly. DO NOT save incorrect letter

Ongoing funding approvals

- Received via email
- Check the approval letter is correct and that the package start date matches the start date on the request form for that particular ACC episode
- If the approval letter is correct, in WEBPAS, enter in the injury detail comment field as per the image below (whatever the dates are on the approval letter) as ONN.....
- Change the service item code via the drop down box to NS05 if need be
- Add the purchase order number under the update tab on the referral and in the box labeled ACC Purchase Order Number

- Save a copy of the approval letter under <I:\ACC\Amy\Nursing Services\District Nursing\Monitoring\Approvals Received> and in the relevant folder of NS05
- If letter is incorrect, email back to ACC to amended the approval letter. Once this has been fixed, save a copy of the amended approval letter and update WEBPAS accordingly. DO NOT save incorrect letter

Subsequent and NS01/NS02/NS03

- No prior approval is needed for these four. NS03 doesn't require prior approval unless transferred from another provider or start date before 1st July 2025.

Receiving decline letters from ACC

- Received via email
- Send a copy of the decline letter to district nursing referrals via email. In the subject include patients NHI and decline of nursing services
- In the email ask for the district nurses to change episode to a DOM as ACC has declined nursing services
- Save a copy of the decline letter in the I-Drive under <I:\ACC\Amy\Nursing Services\District Nursing\Monitoring\Declines Received> in the relevant year. This gets saved as LAST NAME, First name and ACC number
- This applies for all nursing services declines

Billing of nursing services

- Billing is done in the third week of the month for the month previous; so if we're in August currently, billing to be completed would be July
- Consumables is a month behind the packages billing so in this instance would be billing June
- Where to find the report: staff intranet – health and BI reports – directory of dashboards and reports – DHB wide – ACC – NS06, 05, 04, packages price linked
- Open the report
- Change date ranges to run query for month of billing i.e. as per example month above, dates would be 01/07/20-01/08/20. Once changed, click view report
- click on the file icon and select excel, see below

Health and Business Intelligence Reports

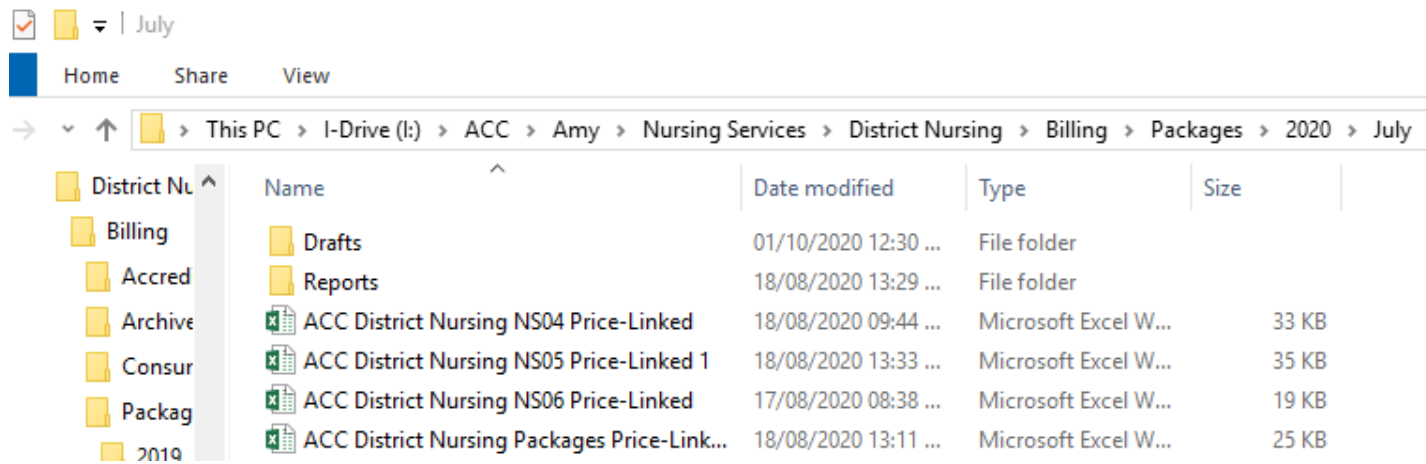

Home > DHB-wide > ACC > ACC District Nursing NS04 Price-Linked

Service started between 7/1/2020 and 8/1/2020 [View Report]

ProviderID	ClaimNumber	ApprovalNumber	AccidentDate	NHI	Word	IntSecondName	ClaimantThirdName	ClaimantSurname	ClaimantDOB	ServiceDate	FacilityCode	LoadingCode	ClaimedTotalAmount	ClaimedHours	ClaimedMinutes	ClaimedDists
K96655	10023678185		06/12/2010	FZH2229	Excel			MERWOOD	03/03/1940	01/07/2020			\$92.78			

- When the message come up to open or save, click open and then enable editing
- Save under reports for that relevant month in <I:\ACC\Amy\Nursing Services\District Nursing\Billing\Packages>

- Copy report into the months main folder and work off that one, see below for relevant months billing folder example:

- repeat the above steps for each of the price linked reports (NS06, NS04, NS05 and packages)

NS06 billing

- checking the I-Drive folder whether we have a notification for the subsequent injury
- if we do, the patient can stay on the billing list
- if we don't, remove from billing sheet and place on a DRAFT spreadsheet
- Check to see if:
 - All ACC numbers look correct
 - Dates are all formatted the same way
 - No \$ sign in column N
 - Check the amount is right, i.e. 32.30 as per current contract
 - If patient is seen by the same nurse and has two visits for same day, delete one
 - If patient is seen by two nurses' same day, document it in column R- two nurses' same day
- Save spreadsheet

NS05 billing

- checking expiry dates and hours
- if meets the number of hours or visits, the patient can stay on the billing list
- if we don't, remove the ones that don't meet the number of visits/hours or expired from billing sheet and place on a DRAFT spreadsheet
- Check to see if:
 - All ACC numbers look correct
 - Dates are all formatted the same way
 - No \$ sign in column N
 - Check the amount is right, use the equation: NS05 price per hour/ 60 x minutes. i.e. $87.43/60=1.4572 \times 45=65.5725$; on billing spreadsheet round to 2 decimal points
 - If patient is seen by the same nurse and has two visits for same day, delete one-lesser amount
 - If patient is seen by two nurses' same day, document it in column R- two nurses' same day
- Save spreadsheet

NS04 Billing

- checking expiry dates number of visits
- if meets the number of visits and hasn't expired, the patient can stay on the billing list
- if we don't, remove the ones that don't meet the number of visits or expired from billing sheet and place on a DRAFT spreadsheet
- patients who have gone straight from NS03 to NS04; will have to count the 25th visit and check that we have billed it as won't show up on the NS03 billing spreadsheet as not discharged from service; may have to check previous months billing also if 25th visit does not fall in current month billing for.
- Check to see if:
 - I. All ACC numbers look correct
 - II. Dates are all formatted the same way
 - III. No \$ sign in column N
 - IV. Check the amount is right, currently, should be 94.91 as per contract amount
 - V. If patient is seen by the same nurse and has two visits for same day, delete one
 - VI. If patient is seen by two nurses' same day, document it in column R- two nurses' same day
- Save spreadsheet

NS01/NS02 and NS03 billing

- checking dates of each patient, making sure they fall into the right package (see the district nursing packages on page 1)
- use the equation =(Y2-K2 and press enter this will give the total number of days
- for NS03, check that we have the purchase order (this goes in column R). If no purchase order, remove from billing spreadsheet and put on a draft labelled packages.
- Check previous drafts to see if we can bill those if we have the purchase order
- Check to see if:
 - i. All ACC numbers look correct
 - ii. Dates are all formatted the same way
 - iii. No \$ sign in column N
 - iv. Check the amount is right, currently, should be 444.41 For NS01, 1009.54 For NS02 and 1958.12 for NS03 as per contract amount
- Save spreadsheet

Consumables billing

- Consumable billing is a month behind rest of nursing services billing i.e. if we're currently in October and billing for September for nursing services, consumables we would be billing for August. This is to make sure the package has been billed before the consumables to avoid rejections
- for the billing sheet, pull up previous billing completed from here: <I:\ACC\Amy\Nursing Services\District Nursing\Billing\Consumables\2024> and copy the final of the MCON to a new folder for the month billing and relabel this as MCON AUG20 (or whichever month billing)
- from there, use the district nurse's consumables folder that is kept in cabinet in the ACC office and find the month billing for and this is what you are working off
- bill everything possible off the consumables sheet for that month
- to find a patient on excel spreadsheet, use ctrl + F to find the patient

- select that patient and cut to the top (work top to bottom)

- Follow the above for every patient
- If patient isn't on the spreadsheet, add them in and bill accordingly
- Check to see if:
 - All ACC numbers are correct (may have to use WEBPAS and/or providerhub as not every ACC number written on the consumables sheet is the correct number)
 - Dates are all formatted the same way
 - No \$ sign in column N

- Check the amount is right, can find price list here: <I:\ACC\Amy\Nursing Services\District Nursing\Billing\Consumables>
- Once finished, anything left over at the bottom of the spreadsheet (doesn't have a consumables paper sheet for) can delete off the spreadsheet
- Save spreadsheet
- If you find on a consumables notification sheet you find that the patient doesn't turn up on the list working off and has billing for previous month, open another billing spreadsheet and bill for that month to.

When completed whole billing above, send all spreadsheets to team lead for checking/approval. Once approval is given, email the spreadsheets to Accounts.Receivable@midcentraldhb.govt.nz for processing.

Add all totals of billings to <I:\ACC\1 Annual Billing> in the respective year to keep a track of what is billed.
